Malek Alhoubani

Computer Information Systems

Amman, Jordan malekalhoubani77@gmail.com (079)197-2859

PROFESSIONAL SUMMARY

Computer Information Systems Professional with practical experience in Angular , ASP.NET Core Api , PHP , SQL , and AI Integration Focused on developing reliable software solutions and enhancing technical expertise across modern web technologies .

EDUCATION

The Hashemite University

Sep 2021 – Feb 2024 Amman, Jordan

B.SC. COMPUTER INFORMATION SYSTEM,

PROJECTS & EXPERIENCE

Full-Stack Developer

Innovators-grid –Amman –Jul-2025 To Present

- Integrated SignalR to deliver real-time notifications , status updates , and live dashboard , improving systems responsiveness and user engagement , and enabling instant communication between clients and server-side process.
- Implemented an Audit Logging System to track user activities , including user identity , operation type (Create Update,Delete), effected entities , timestamps , IP addresses , and before/after data changes.
- Developed and integrated document generation and export functionalities with PDF , Word , and Excel formats to support Auditing , and business processes enabling efficient data haring , regulatory compliance , and management decision-making
- Designedandimplementedsecureauthenticationandauthorizationworkflows, including user registration , JWT-based authentication
- Two-Factor Authentication (2FA) , and password expiration policies , enhancing system security and ensuring compliance with access Control and regulatory requirements.
- Collaborated with cross-functional teams to deliver enterprise features for **Risk, Audit, and Compliance** platforms while ensuring high code quality, maintainability, and performance
- Connected front-end screens with backend services for real-time updates, secure access, and consistent data handling across risk, audit, and compliance workflows.
- Worked with the team to review feature implementations and maintain consistent behavior across the risk, audit, and compliance modules.

Full-Stack Developer

Matelda forITand Web Solution –Amman –Dec-2024 To Jul-2025

- Developed a Task Management System featuring task creation , assignment , priority management , deadline tracking , and status updates using ASP.NET Core Web API and Angular
- Built advance Search , Filtering , Sorting , and Pagination features using Angular and ASP.NET CORE APIs to efficiently manage large datasets.
- Developed Reporting and Export features allowing users to generate task summaries , financial reports , and certificate records in pdf and Excel formats .
- Organized search, filtering, sorting, pagination, reporting, and export features into practical workflows for users working with task and financial data.
- Integrated a third-party translation API into the web application , enabling the user to translate custom text into different languages through a user-friendly interfaces , with dynamic API requests and real-time translation result
- Connected Angular screens with ASP.NET Core endpoints so task assignments, deadlines, priorities, and status changes remained consistent across the application.

Front-End Development Intern-Remote Internship

Tech Startup ,Netherlands-2024

- Worked collaboratively with an international team to design and implement highly responsive user-friendly interface using Html ,Css .JavaScript.
- Focused on building scalable Single-Page application (SPA) architecture , component-based design , and seamless user experiences across devices .
- Collaborated using agile workflows , contributed to UI/UX improvements , and used tools like , GitHup for version control and design handoff.

Academic Marketplace Platform for Students – Senior Project

Hashemite University – 2024

- Developed a student-only web marketplace for buying and selling academic goods,integrating into the Hashemite University Library to sell educational materials.
- Implemented a chatbot messenger system for student communication and AI-powered security features to detect phishing, fraud, and inappropriate content.
- Built a recommendation engine and responsive UI using Angular , with backend services developed using ASP.NET CORE WEB API.
- Designed an SQL database for managing user data, transactions, and inventory, optimizing queries for efficient data retrieval.

SKILLS

- **CSS**
- **Bootstrap 3**
- **JavaScript**
- **Angular**
- **PHP (CodeIgniter4)**
- **SQL Database**
- **MSSQL Database**
- **ASP.NET API**
- **Azure**

COURSES & CERTIFICATES

Angular Course: Angular fundamentals, including project setup, component , data binding , directives , services , dependency injection , routing , and building single-page applications , developed dynamic and scalable user interface through hands-on projects.

ASP.NET Core Web API Course : Course: ASP.NET Core Web API Fundamentals , including project setup , controllers , routing , model binding , validation , dependency injection , middleware , authentication , and authorization , and building RESTful APIs developed secure and scalable backend services through hands-on projects

Front-End Web Development – Elzero School: HTML, CSS, JavaScript, and responsive design to build interactive web applications.

PHP-Programming –W3Schools: learned core PHP concepts , syntax, from handling sessions , and database connectivity

Framework Experience: Practical work with CodeIgniter PHP frameworks , focusing on ,MVC architecture ,RESTful API , authentication , and database ,management .

Selected Coursework: Security Systems (CIS), Database, Lab Database, Financial Principles, Management Information Systems (MIS).

VOLUNTEER

Ruwwad Al Tanmeya - Website Monitoring and Content Control: Assist in reviewing, filtering, and ensuring compliance of websites and online content with institutional policies, identifying inappropriate material, and supporting content regulation.

Ruwwad Al Tanmeya - Python Learning Support: Guide students in mastering Python fundamentals, engage them in interactive codingexercises, and assist with developing projects byoffering personalized instruction, debugging, and collaborative opportunities.
